ABOUT THE ROLE

The Partnerships Executive role will primarily be supporting our Partnerships Team as we prepare for our busiest time of year, Breast Cancer Awareness Month. We are looking for an enthusiastic and organised individual, who would like to learn more about fundraising, and develop their skills and experience in Corporate Partnerships and Corporate Fundraising.

October is Breast Cancer Awareness Month (BCAM), our busiest month of the year. It is when we are managing an increased amount of Corporate Partnership activities and when we receive the most enquiries about supporting CoppaFeel! in the workplace. It is also the time when our fundraisers need the most support from us. It is a lively, fun and interesting time to be part of the team.

This is an opportunity for someone to learn more about Corporate Partnerships and donor stewardship as part of our enthusiastic team at CoppaFeel!. The right candidate will be someone who possesses the values of CoppaFeel!, has good communication skills, a can-do attitude and a real desire to make a difference, ensuring that all breast cancers are diagnosed early.

ABOUT COPPAFEEL!

CoppaFeel! exists to educate and remind every young person in the UK that checking their chest isn't only fun, it could save their life. We are the first breast cancer charity in the UK to create awareness amongst young people, with the aim of instilling a new, sustainable, and healthy habit that could one day save their life.

We are a small team which, collectively, has one almighty big voice. We were founded out of a need to correct the disadvantage that young people experience when they are not represented in or cannot see themselves reflected in the work of other organisations working in this space. That means that many young people are diagnosed late, or die from this disease. Our team is driven to change this.

CoppaFeel! is about more than discovering a cancer diagnosis. It's about empowering everyone to be proactive about their health and body, as well as their outlook on life. It's about knowing your boobs; knowing that if you do find something, you know what to do and if found early, you have many options. Put simply, breast cancer does not need to be detected late, and as long as we are here and continue to be supported by people like you, we will do all we can do to make sure that this doesn't continue to happen.
