Hi [Name],

I hope you're well.

I'm volunteering with CoppaFeel!, the UK's only youth-focused breast cancer awareness charity, to help empower my colleagues to feel confident checking their chest. When breast cancer is found early, treatments work better and survival rates are higher. Early detection saves lives.

CoppaFeel! provides free, small removable stickers for your bathroom mirror or shower. These stickers help educate on the signs of breast cancer and act as a handy prompt to check your chest.

I'd like to ask permission to put up a small number of these stickers in [office bathrooms / showers / changing rooms]. They are:

- Fully removable and residue-free
- Safe for mirrors, tiles, and doors
- Inclusive of all genders

They're designed for health awareness and don't include graphic images or advertising. You can also [view an example on CoppaFeel!'s website](#).

Please let me know if this would be okay, or if you'd like any more information before deciding.

Thanks so much for your time and consideration.

Best wishes,

If your office can't take part, reach out to local businesses, gyms, or yoga studios. Offer stickers for bathrooms, showers, or changing rooms — for staff and visitor spaces. Lots of businesses use Instagram for enquiries, so we've included a ready-to-go DM template too.

Hi [Name]! 🙌

I'm volunteering with CoppaFeel!, a UK charity empowering young people to check their chests to help catch breast cancer early. Early detection saves lives.

We have small, removable shower/mirror stickers that educate on signs of breast cancer, and act as a handy reminder to check your chest. I'd love to ask if we could put a few up in your [changing rooms / bathrooms / showers].

They're fully removable, safe for walls and mirrors, inclusive of all genders, and don't include graphic images or advertising. I can send a photo so you can see exactly what they look like.

Would this be okay? 💜

Thanks so much for considering!
